

**BrainHearing for the Senses– Oticon Government Services Conferences
10 hours (1.0 CEUs)**Summary

This conference will explore how the brain makes sense of this dynamic and complex information and why this is important to you and your patients. You will learn how Oticon's new processing platform brings BrainHearing™ technology to the next level. Help your patient's experience better hearing with less effort in even more challenging listening environments and learn about new Power options for your patients.
